

## **Screening & Brief Intervention Meeting**

August 7, 2006

Attendance: Kelly Erlandson, Mary Jo Gillespie, Joan Anderson and Kit Boesch.

Purpose: To transfer the SBI Project to the Lancaster County Medical Society

Goal of the Project: To reach out to as many health professionals as possible. This includes physicians, nurses, PA's, student nurses, dentists, behavioral health professionals, social workers, etc.

Kelly & Kit shared some of the following information:

1. Since December 2006 there have been 8-10 presentations given.
2. Trainings are often best received when peer-to-peer training occurs.
3. We will need more trainers. Currently, time permitting, Karen McCaine, Joe Rogers and Otto Schultz have indicated they would continue. Several additional names were thrown out as possible trainers including Duke Engle; Kate Speck, Scott Moore; and others.
4. A Train the Trainers Program would take about 3 hours. Otto and Joe were suggested by Kelly as being outstanding.
5. Some trainers were paid, some were not. Kit suggested all trainers doing SBI training should receive a stipend for their time. If they don't want it, they can waive it but it should be offered. The amount would depend on our available dollars.
6. Kit will get Mary Jo "Back on Track" stationary so it can be used for the SBI Project.
7. It appears CEU's for nurses has already been approved. We would just need to provide our revised presenter list. LMS will check on CEU's for social workers as well.
8. Funds were discussed. Kit will do a draft budget based on current SICA and DFC grants. See attached for discussion. Kelly shared costs she was familiar with.
9. Materials: Materials were physically transferred to LMS staff with the exception of 500 packets located at LCAD. LMS may choose to move them or leave them there to access as needed.

Thanks to everyone. Kelly, for taking her time to meet and share; and Mary Jo and Joan for stepping up to do this.

Kit Boesch
